

The CD-1500 is a lightweight card dispenser approximately 50% of the weight of our other ranges.

It features a sliding type dispensing mechanism, and the design also enables longer cards to be dispensed.

A slide mounting base also enables ease of removal from the host machine.

A range of cassettes are available to increase capacity.

FEATURES

- Lightweight
- Slide dispense mechanism
- Parallel interface
- Slide mount base
- Cassettes
- Increase card length

TECHNICAL SPECIFICATIONS

- **Host Control Interface:**
Parallel
- **Supply Voltage Options:**
24V DC
- **Current Consumption:**
100mA (standby) 1.5A (Peak)
- **Size:**
110mm(H) x 155mm(D) x 82.5mm(W)
Sizes are approximate and without cassette
- **Applicable Cards:**
53.0mm-65.0mm (W) x 76.0mm-92.0mm (L) Thickness: 0.25mm-0.8mm
- **Environment:**
Operating Temperature: 0°C~+40°C
